soTules

The image features a dark background with a complex, light-gray circuit board pattern. The pattern consists of numerous thin, interconnected lines and small circular nodes, resembling a microchip or a network diagram. Overlaid on this background is the word "soTules" in a large, white, serif font. The letters are stylized, with the 'T' being particularly prominent. The text is slightly offset from the center, and there are subtle, semi-transparent gray shapes behind the letters, creating a layered effect. The overall aesthetic is technological and modern.
